RE: Vacancy for Data Engineer (R9245)

Dear Sir/ Madam,

I am writing to express my strong interest in the Data Engineer position at First National Bank Namibia. With my background in data analysis and a passion for leveraging insights to drive business growth, I am confident that I am a great fit for this role.

Having worked as an Core Engineer in the telecommunications industry for the past 12 years, I have developed a deep understanding of data management, data acquisition and processing, and data visualization techniques. I am skilled in programming languages such as Python, SQL and R, and have experience working with and managing Apache Hadoop, Hive and Spark clusters for processing Big Data analytics. My ability to translate complex data into actionable insights has helped organizations optimize their decision-making processes and drive revenue growth.

I am excited at the opportunity to work with FNB Namibia's team of talented professionals in a fast-paced and innovative environment. I am particularly drawn to the company's commitment to using data-driven strategies to solve complex business problems. I believe that my strong analytical skills and passion for problem-solving make me an ideal candidate to contribute to FNB Namibia's success.

In my current role as an Core Engineer at MTC Namibia, I successfully architected and developed a Fraud Detection System that saved the company N\$14 million. By analyzing incoming call records ingested via a robust ETL pipeline I am able to identify and alert incoming call fraud, resulting in decreased fraud exposure for our subscribers. I am confident that my experience in leveraging data to drive business outcomes will be valuable in helping FNB Namibia achieve its goals.

I am excited about the opportunity to join FNB Namibia and contribute to its growth. I am confident that my skills, experience, and passion for analytics make me a strong fit for this role. Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to the success of FNB Namibia.

Sincerely,

Giovanni Mostert
